

Tress, table design Marc Sadler 2008

FOSCARINI

The seduction of a woman's tress was the initial inspiration for the Tress family of lamps. This design-come-true by Foscarini was achieved through the development of a completely original technological process, involving a fiberglass and resin tape woven together with orderly casualness to become the structure and aesthetics of the lamp. Tress changes personality according to its color: it is light and discrete in white, strong and decisive in black and volcanic and totemic in red, which makes the contrast between the interior and the exterior even more

evident, surprising in indigo blue and extremely contemporary in greige, a shade between grey and beige. The decorative effect created on the supporting surface is a key feature of the table version: a precious weave of light and shadow. The mini table version joins the larger model and is perfect when placed on a coffee table or bedside table.

FOSCARINI

Description

Table lamp with diffused light. The fiberglassbased composite material diffuser is produced by modelling tape along a mould with an automatic control of the pitch/pattern, which is then liquid coated. The transparent cable is fitted with the dimmer, for the gradual adjustment of brightness.

Materials compound material on lacquered glass fiber base

Colors white, black, crimson, greige, indigo

Model

Tress

Weight

net lbs: 7,05
gross lbs: 9,48

Packaging

vol. cub. ft.: 3,426
n. boxes: 2

Bulbs

halogen 1x75W E26 PAR30

with dimmer included

Cable length

Tress mini

Weight

net lbs: 3,09
gross lbs: 7,50

Packaging

vol. cub. ft.: 1,483
n. boxes: 2

Bulbs

halogen 1x75W GU10 PAR 20

with dimmer included (minimum bulb output 40W)*

Cable length

Brightness light diffused light
